SAN JUAN del SUR, Nicaragua—Overlooking the bay of San Juan del Sur on Nicaragua's southern Pacific coast is the new, luxurious Palermo Hotel & Resort.

Its 50 2-bedroom villas are perfect for short or long-term stays, offering a fully-equipped vacation home featuring the best contemporary furnishings and amenities in a casual, stylish environment. The villas are decorated with furniture hand-crafted from local woods and original artisan pottery and artwork.

Palermo Hotel & Resort is an unexpectedly luxurious hide-away within a rustic and equatorial area with incredible views of the Pacific and surrounding countryside. Close to the picturesque and historic fishing village of San Juan del Sur, the resort specializes in gourmet food utilizing local ingredients under the guidance of an international chef and service staff carefully trained to the best European standards.

The Casa Club, a creative lounge, bar and restaurant, overlooks the Pacific with wonderful sunset panoramas as well as the resort's attractive pool. The complex is situated on a 1000-acre preserve, perfect for horseback riding and located very close to sailing, snorkeling and surfing on the best beaches in Central America. The town of San Juan del Sur offers interesting dining and shopping and is accessible by a complimentary taxi ride. Granada, a larger and beautifully restored colonial town, is one and one half hours away. An on-site guide is available to arrange a variety of day trips and adventures.

Rates for the 2-bedroom villas, which can accommodate 4 adults or a family of 5, start at \$139 per night and can vary according to length of stay; long term rates can be negotiated.

Villas de Palermo is easily reached by Continental or American airlines to Managua followed by a 2-hour transfer by pre-arranged car or by rental car. The Costa Rican airport of Liberia, also 2 hours away, offers additional flight possibilities with similar arranged car transfers.###
